

SCHOOL DISTRICT NO. 48 (SEA TO SKY)

POLICY SERIES 1000 - SCHOOL-COMMUNITY RELATIONS

1003	RELATIONS BETWEEN SCHOOL AND THE PUBLIC
1003.1	Community Partnerships / Corporate Sponsorships

The Board of Education, School District No. 48 (Sea to Sky), supports the establishment of community partnerships between schools and business/community organizations. Community Partnership occurs when businesses give a product, service or money to the school without expecting commercial gain. Such agreements are established to provide benefit to the educational programs of students.

The Board of Education, School District No. 48 (Sea to Sky), limits the establishment of corporate sponsorships between schools and business/community organizations. Corporate Sponsorship occurs when businesses give a product, service or money to a school expecting commercial gain. Such agreements are limited in duration.

Further, the Board acknowledges and values the many informal local associations and connections between schools and business/community organizations.

The Board expects that the same criteria set out in the Regulation accompanying this Policy will serve as a standard for all partnership/sponsorship interactions in the district.
