

The Board of Education, School District No. 48 (Sea to Sky), believes that decision making at the Provincial, District, School, and Classroom level is an integrated function, the purpose of which is to support *Success for all Students*. Student success is based on research and effective practice.

Decision making to ensure student success must be in accordance with those roles and responsibilities delegated to each partner. The Board endorses and supports the philosophy that educational and operational site-based decisions are made at the Provincial, District, School, and Classroom level. Decisions will comply with all statutory requirements, Ministry of Education directives, Board Policy and contractual agreements.

Each site has a leadership role to improve student learning which includes developing and implementing strategies, and maintaining the alignment between Provincial, District, School, and Classroom education goals and objectives.
