

As prescribed in the School Act, the Board shall provide an educational program free of charge to every school aged resident in its School District who is enrolled in an educational program in a school.

Further, the Board shall establish school catchment areas, and review them on an annual basis, to ensure each school has the capacity to accommodate the anticipated enrolment of resident students. Catchment areas shall be determined after due consideration of all relevant factors, including the capacity available in the schools, accessibility of the schools to the students, and safety of the students going to and from school.

This policy, with respect to resident student registrations and admissions to schools, will endeavour to:

- a. Maximize the number of students able to attend their catchment school;
- b. Support continuity and stability for students;
- c. Provide choice of educational programs to students; and,
- d. Utilize school and district resources in fiscally responsible ways.

The Board may provide for admission of fee-paying Out of Province, Out of Country, and/or International Education Program students to School District schools.

### **1. Introduction**

Section 2 of the School Act requires Boards to provide an educational program free of charge to any person of school age who is ordinarily resident in British Columbia, and whose parent or legal guardian is ordinarily resident in British Columbia. The Board delegates to the Superintendent, or designate, the power to assign and re-assign students to specific schools when circumstances warrant and to determine the availability of space and facilities in schools, according to physical space, seats in classrooms as established through class size legislation, and available resources at that site.

### **2. Required Resident Student Registration Documentation**

Parents and legal guardians must provide accurate demographic and educational information about their student on a [District Registration Form](#) and district [Transfer Application Form](#). Incorrect information may result in the student being denied enrolment. It is necessary for the parent or legal guardian to personally attend when registering a student in School District No. 48 and present the following original documentation:

- a. Proof of British Columbia residency;
- b. Student's BC Care Card;
- c. Student's official Birth Certificate;

- d. Immigration / Citizenship / Permanent Resident documentation, if applicable;
- e. Student's last Report Card, if available;
- f. Legal guardian, custody or court order document, if applicable; and,
- g. Immunization records, if available.

### **3. Registration and Placement**

- 3.1 A student is considered a resident if the student is ordinarily resident in the School District and the parent/guardian of the student is ordinarily resident in British Columbia;
- 3.2 A newly arrived student to the School District must be personally registered in a School District No. 48 school by either a parent or legal guardian. A legal guardian of a child is defined within the meaning established in the Family Relations Act and is the person who has legal control of the child as designated by a governmental ministry or a Canadian court order issued by a judge. The district cannot accept a parent designating a third person as the child's 'guardian' using a notarized or lawyer's document;
- 3.3 The official School District No. 48 registration dates will be announced annually through local media and district websites. Generally, registration officially opens on the Monday of the last week of January and officially closes at the deadline of 4:00pm on the first day of school;
- 3.4 As per Section 3 of the School Act, every child must be registered for school by the first day of school in the year where, on or before December 31st of that school year, the child will have reached the age of 5 years. Students are required to participate in an educational program until they reach the age of 16 years;
- 3.5 Section 3 of the School Act also permits parents/guardians to defer the enrolment of their child into kindergarten until the first school day of the following school year. If a family chooses to defer kindergarten enrolment, the parent/guardian should meet with their child's catchment area school principal and the Director of Instruction: Learning Services for consultation about the home program during that year and the placement process upon that child's entry to school the following year. Upon returning to school following a deferred entry year, the child will be placed in grade 1 with their age group peers. In the event that the parent/guardian would like a kindergarten placement considered for their child, it is required that the parent/guardian meet with their catchment area school principal and the Director of Instruction: Learning Services;

- 3.6 Age appropriate placements will be made for all students enrolling in a School District No. 48 school unless otherwise authorized by the Superintendent, or designate. Decisions regarding placement in a grade other than the age appropriate grade are to be made in consultation with the parent/guardian, school principal, and the Superintendent or designate;
- 3.7 As per Section 74.4.c of the School Act, continuing School District students are not required to apply annually to attend their school of enrolment. Such students will be enrolled automatically in the program or school unless transferred or withdrawn, except for the Sea to Sky Online school where students are required to register for each course individually;
- 3.8 An enrolled student will be removed from the school's register if the student has not returned to school by 12:00 noon on the Friday after school opening in September and their parent or legal guardian has not advised the school of the student's late return;
- 3.9 A student will normally attend the school located in the catchment area within which their parent's or legal guardian's place of residence is located, with exceptions as provided by this policy. School catchment areas have been defined by the Board of Education in Section 6;
- 3.10 The Ministry of Education Statement of Education Policy Order allows for parents in BC to enrol their children in a public school of their choice, provided space and facilities are available. New or existing students in School District No. 48 may request a transfer to a school other than their catchment school. A transfer can take place during a school year if there are available seats, or begin in September. For all transfers, the parent/guardian must complete a [Transfer Application Form](#) and submit that to the office of their catchment area school. If space is available, the student will be placed in their preferred school. Otherwise, transfer applicants will be placed on a waitlist;
- 3.11 Section 74.1 of the School Act establishes priorities for student enrolment which apply if the Board determines that space and facilities are available in a school. Available seats are filled in accordance with the following priorities when students enrol before the registration deadline:
- a. Catchment area students who, in the previous year, attended the school;
  - b. Catchment area students who, in the previous year, were 'placed' by the District in a different school;
  - c. Siblings of catchment area students;
  - d. New catchment area students;
  - e. Siblings of non-catchment area students currently enrolled in the

school;

- f. Out of catchment area students who reside in the School District;
- g. Out of district students who reside in the province of BC.

As per Section 74.7 of the School Act, once the School District's registration deadline has passed, and students who registered before the deadline have been accommodated, any available seat requests will be filled on a first come, first served basis and the priority list above will not apply;

- 3.12 For all students who registered before the deadline, but who were not accommodated, a waitlist will be maintained. As space becomes available throughout the year at that school, the students will be offered a placement in priority order and according to the date and time stamp of their application. If the placement is not taken at the time it is offered, the student will be removed from the waitlist;
- 3.13 Catchment area students who registered by the deadline, and who remain on the waitlist for their school after school start-up, will be placed in a nearby school until seats become available in their catchment school. In the event that the student is placed by the district in a school that is still within the School District's established walk limits (4.2 km for K – 7 and 4.8 km for 8 – 12), no transportation subsidy will be provided. If the student is placed in a school that is beyond these walk limits, a transportation subsidy will be offered. Additionally, space permitting, the student will be offered a seat in the catchment school organization for the following year. If at any point the offer of a seat in the catchment school is made and then denied by the family, any transportation subsidy and ongoing space notifications will end;
- 3.14 If a student who is enrolled in an alternative or district program (e.g. French Immersion) withdraws during the school year, they will be placed back at their English catchment school. The student may apply to transfer to a school other than their catchment school. For example, they may wish to stay in the out of catchment school they are currently attending for the alternative or district program. Like all transfer requests to out of catchment schools, the student will be placed there if space and facilities are available or waitlisted according to the date and time stamp of their request;
- 3.15 *French Immersion Registration*  
  
For French Immersion Registration, please refer to *Policy 603 French Immersion*;
- 3.16 For School District No. 48 Programs of Choice, including French Immersion, registration and transfer applications during the school year from one program to another will be considered, space and facilities permitting, up to the Spring Break each year. Following the Spring Break, registrations and transfers to these programs will be accepted for the following school year, in

keeping with the priority order established for registrations received prior to the school registration deadline. In some circumstances, where it is determined that the placement of a new registration or transfer does not preempt the existing waitlist for the following year, a student may be placed in the program after Spring Break.

#### 4. Out of District Students

##### 4.1 *BC Students*

A non-district student, ordinarily resident in BC, wishing to enrol in School District No. 48 must submit a [Student Registration Form](#) and an [Out of District Transfer Form](#) to the requested school in accordance with the requirements of this policy. The Board may refuse to enrol a non-district child under Section 2(2) of the School Act if the child is a student suspended by a Board or to whom a Board has refused to offer an educational program under Section 85(2) of the School Act;

##### 4.2 *Out of Province Students*

Canadian students who do not meet the BC provincial residency requirements of Section 82 of the School Act may be registered and enrolled in a School District No. 48 school as outlined in [Policy and Regulation 602.13, Out of Province Students](#). Out of Province students are not eligible for provincial funding and therefore are required to pay a fee;

##### 4.3 *Out of Country Students*

A student who does not have Canadian Citizenship or Permanent Resident status but resides in School District No. 48 with a parent/legal guardian and wishes to enrol in a district school must be referred to the International Student Program for documentation review. Upon completion of the full registration process a recommendation will be made to the Superintendent of Schools. The same requirement applies if the parent or legal guardian does not have Canadian Citizenship or Permanent Resident status, even if their children do. International student fees may apply;

##### 4.4 *International Student Program*

International students, that is Out of Country Students, who have been invited to attend a district school through the School District No. 48 International Education Program will pay a fee and be registered in a Sea to Sky school following the procedures outlined in the International Education [Policy](#) and [Regulation 802.1](#);

##### 4.5 All Out of District students who attended a district school in the previous school year and wish to attend in the subsequent school year are required to submit an [Out of District Transfer Form](#) to their school by June 15th. A new application must be submitted each year;

- 4.6 An Out of District applicant will not have their application reviewed until September enrolments are confirmed, generally by the second week of September, unless known available space in the school will allow the student to have their enrolment approved in advance of school opening.

## 5. Catchment Area Boundaries

<b>Squamish Area Schools</b>	<b>Grades</b>	<b>Area where students reside</b>
Brackendale Elementary	K-6	<ul style="list-style-type: none"> <li>West of Sea to Sky Highway 99 and north of Lesky's railway crossing</li> <li>Upper Squamish area</li> <li>Cheakamus area</li> </ul>
